

## Carpet Shampoo

### DESCRIPTION

Deep-cleaning formula carpet shampoo releases dirt from carpet fibers.

### TV-8 FORMULA

Percent solids by weight: 13 to 15 %

Viscosity: Water thin

Weight per US gallon: 8.6 +/- 0.1 lb

### Product Features

- Safe for stain-resistant carpets
- Leaves carpet clean & fresh
- Protects against re-soiling

**RECOMMENDED USE:** Provides a special formula with acrylic polymers to clean, brighten, protect and deodorize carpet and rugs. Meets or exceeds carpet manufacturers' specifications for cleaning stain-resistant carpets.

**HELPFUL HINTS:** Before cleaning carpet, test product in a small hidden place for color-fastness or shrinkage. When using any product on stain-resistant carpeting, check manufacturer's recommendations for use. Do not use in carpet extraction machines. Place foil or waxed paper under furniture legs to prevent possible staining of damp carpet. For product use information, contact your place of purchase. Remove furniture when possible. Vacuum carpet thoroughly. Use Spot & Stain Remover on any stains and Spray Traffic Lane Cleaner on any heavily soiled areas.

**DISPOSAL:** Use up or give away excess product. Contains surfactants. Do not reuse container. Empty container may be recycled or placed in trash.

**HANDLING & STORAGE:** Do not mix with bleach or any other household cleaning materials. Close container after each use. Store in a cool, dry area. Avoid extreme temperatures. If frozen, thaw and mix before use.

---

**APPLICATION METHODS:** Shake bottle and add 8 oz. of carpet shampoo per 1 gallon hot water. Average coverage for ½ gallon of concentrate = 1000 sq. ft. depending on carpet type and amount of soil. Use 16 oz. per gallon for heavily soiled areas. Avoid over-wetting carpet. While carpet is drying, re-set pile with a stiff broom or bush by stroking on one consistent direction. Drying time can be reduced by using a blower or several fans. When completely dry, vacuum carpet thoroughly.

---

### CAUTION

- Avoid contact with eyes and skin.
- Wearing non-porous gloves is recommended
